Product Description

Wholesale Electric Golf Cart Buggy Customizable 4 Seat Electric Car Club Car Mini off Road Hunting

Product Description:

The Electric Golf Carts available are equipped with an AC Electric Motor, providing a powerful and efficient engine type suitable for a range of golfing needs. With a weight ranging from 600 to 800 lbs, these carts offer a sturdy build while remaining lightweight and easy to maneuver on the golf course.

When it comes to safety features, the Electric Golf Carts boast an impressive braking distance of $\leq 3.0\text{m}$, ensuring quick and reliable stops when necessary. This attribute is crucial for navigating the golf course with precision and confidence.

For those interested in international trade and customs information, the Electric Golf Carts fall under HS Code: 8703101900, making them easily identifiable for shipping and regulatory purposes.

With a passenger capacity of 2 seats, these carts are perfect for a twosome looking to hit the greens in style and comfort. Whether you're golfing with a friend or a partner, these Electric Golf Carts provide a cozy and enjoyable ride throughout your game.

One of the standout features of these Electric Golf Carts is their compatibility with deep cycle golf cart batteries. These batteries are designed to provide long-lasting power and performance, ensuring that your golf cart remains operational for extended periods without any hiccups. This makes the Electric Golf Carts not only reliable but also cost-effective in the long run.

Additionally, these carts can be customized to suit individual preferences and needs. Whether you're looking to add extra cargo space for your golfing gear or personalize the aesthetics of the cart, there are options available to create a custom electric golf cart that meets your specific requirements. This flexibility allows golfers to tailor their carts to enhance their overall golfing experience.

If you're in the market for a versatile and efficient golf cart that combines performance, safety, and customization options, the Electric Golf Carts with an AC Electric Motor are an ideal choice. With their sturdy construction, reliable braking system, and compatibility with deep cycle golf cart batteries, these carts offer a premium golfing experience for players of all levels. Explore the possibilities of a cargo golf cart or create your own custom electric golf cart to elevate your time on the course.

Applications:

LANGJIE Electric Golf Carts, model number FH4-1, are designed and manufactured in Guangzhou, China, ensuring high quality and reliability. With CE certification, these electric golf carts are suitable for a wide range of application occasions and scenarios.

The Electric Golf Cart Battery powered FH4-1 is perfect for use on golf courses, resorts, parks, and other recreational areas. Its compact size and maneuverability make it ideal for navigating tight spaces and narrow pathways while carrying golfers and their equipment around the course with ease.

Additionally, the cargo golf cart feature of the LANGJIE FHA4-1 makes it versatile for transporting supplies, maintenance equipment, and other items across various terrains. The low-profile turf tires provide excellent traction and stability, ensuring a smooth ride even on uneven surfaces.

With a braking distance of 3.5m, the LANGJIE electric golf cart prioritizes safety for both passengers and pedestrians. The rear suspension system, equipped with coil spring hydraulic shock absorbers, offers a comfortable and stable ride, even on bumpy terrain. The electrical system of the FH4-1 operates on 48 Volts AC, providing efficient power delivery for continuous operation. The electric golf car can be easily recharged, offering a convenient and eco-friendly alternative to traditional gas-powered vehicles. For convenience, the LANGJIE Electric Golf Carts can be purchased with a minimum order quantity of 1 unit, and the price is negotiable. The packaging details include disassembled steelframe packing or non-packing options, depending on your preference. With a delivery time of 20 days, payment terms of T/T, and a supply ability of 500 units per month, LANGJIE ensures prompt and reliable service to meet your electric golf cart needs. The HS Code for the FH4-1 is 8703101900, facilitating easy import and export procedures.
